Satish Kumar Yadav (SKY Sir)

B.Tech & M.Tech - IIT Delhi

(Mentor of AIR- 3, 31, 97, 194, 358, 360, 474, 478, 887, 951, 977 & many more in JEE & NEET)

About us

SKYChem Education is an initiative by Satish Kumar Yadav (famously known as SKY Sir among students) to impart best in class education to IIT-JEE and NEET aspirants.

Mr. Yadav is a B.Tech and M.Tech graduate in Chemical Engineering from IIT Delhi (2010-2015). Teaching was not on the cards for him until his final year at college. It was during his participation for a voluntary social services program at IIT Delhi, where students had to go ahead and teach underprivileged children living near the campus free of cost, which gave him a new perspective and inspired him to work in the education sector.

In his final year, the time came to sit for campus placement and make a career decision, however, not one to tread the corporate path, he soon found himself looking for a fulfilling career option in education, and that's when the idea of teaching the engineering and medical aspirants hit him.

Passionate in the art of learning and teaching coupled with exceptional subject knowledge, presentation and elucidation skills, he chose academia over industry, and has never looked back.

He has taught at various renowned institutes like MindPro Academy Hisar, Rahmani Super-30 Patna, JKs Academy Mathura, IITians' Tapasya Patna and also has extensive online teaching experience.

Strongly motivated by an entrepreneurial spirit and his inherent prerogative in the field of teaching, he founded SKYChem Education.

He is committed to make learning process fundamentally strong and enjoyable for the aspirants by using innovative thinking. His belief in systematic and planned preparation has helped numerous students achieve their dreams.

In the first year of his teaching journey, one of his students secured **AIR-31** (Anuj Mittal- IITJEE Adv. 2014) followed by **AIR-194** (Parv Jain- IITJEE Adv. 2017), **AIR-3** JEE Main 2020 & **AIR-97** IITJEE Adv. 2020 (Divyanshu Agarwal).

He has many more remarkable results to his credit: **AIR-358** (Sanyam- IITJEE Adv. 2020), **AIR-360** (Sanchit Chaba- IITJEE Adv. 2020), **AIR-474** (Kushagr Goyal- IITJEE Adv. 2021), **AIR-478** (Parth Kamra- IITJEE Adv. 2020), **AIR-887** (Srijan Mittal- NEET 2022), **AIR-951** (Yogesh Nain- IITJEE Adv. 2020), **AIR-977** (Shivansh- IITJEE Adv. 2020), **AIR-1326** (Manaswini- AIIMS 2019) & more.

These success stories have given him both the wings to his passion and confidence to keep going.

The meticulously maintained coaching quality, harmonious learning and healthy competitive environment have made SKYChem the unanimous choice for Chemistry in Hisar.

WHY SKYChem?

- Directed by an IITian with excellent track record of teaching and proven results.
- Emphasis on systematic learning, revision, study material, tests and quizzes.
- Separate study material and tests for Medical & Non-Medical
- Holistic and student-centric approach.
- Perfectly in sync with the present-day exam pattern and preparation needs.
- Courses are designed to focus equally on boards and competitive exams.
- Greater personal attention, personalised doubt solving sessions, regular counselling.
- Result oriented test programs with prompt feedback.
- Facility of back up video lectures.
- A fully equipped in-house library and multimedia classrooms with air conditioning.

Testimonials & Success Stories

Since the day of my association with SKY Sir, the journey through the realms of chemistry has been a cakewalk for me. SKY Sir made me realise that Chemistry as a subject is not difficult, dull or "illogical" as most people accuse it of.

Initially, 2 years back, I was having troubles with topics like Ionic Equilibrium, Thermodynamics and Isomerism since I found that most sources available lacked the amount of theoretical depth that is needed to be conceptually clear in these fields and at this point I met SKY sir and he tilted the scales in my favour.

Sir has so deep and crystal clear concepts in chemistry that soon topics like Thermodynamics were engraved in my brain with utmost lucidity and confidence. He has so well curated and indepth self designed content that makes learning task easy and simplified for a focused student. I have had hours of doubt discussions with him where he literally didn't leave any speck of doubt in my mind regarding the concept being discussed. Gradually with him I learnt a lot and gained confidence in Chemistry.

SKY Sir as a person is very conscientious, hardworking and caring for students and along with this he has a charming, witty, energetic and cheerful personality which maintains a positive aura around him that keeps students focused and motivated both inside and outside the classroom.

I also took a lot of exams at the undergrad level during this period, in some of these the results were fantastic while in others it might be a bit bad but honestly speaking results never matter much what matters most is that in these exams I never felt that I was conceptually weak in chemistry and that I think is the biggest achievement for a teacher and a student.

By the end of these 2 years I fell in love with Chemistry that I initially found dull, SKY Sir has so beautifully painted the canvas of chemistry with colours of his knowledge.

Hats off to him and the whole hardworking team at SKYChem.

The way chemistry is taught here, is seriously unparalleled! Infact, SKY sir, is the one you should be looking out for (for chemistry, obviously) if you are in your days of jee (I know only about jee, must be good for medical too) coaching. He understands the issues faced by the children during their time of preparation and tries his best to confront them.

As far as topics are concerned, every topic involved in the syllabus is given proper time, maintaining proper standard of questions, asked frequently in competitive exams. The best part is, no topic is left not heeded. And the confidence of a child keeps increasing once s/he gets hold of things being covered in class.

If you are serious, I highly recommend joining the institute!

Testimonials & Success Stories

I started my KVPY/NEET preparation in Class 11 with SKYChem. In this undulating journey of 2 full years, SKY sir has not only supported me academically, but also inspired me during times when I was not performing at my best.

After joining SKYChem, I learned to truly appreciate chemistry as a science rather than it being a dry exercise of memorising facts and formulae. His pedagogy helped me to understand the basic mathematical logic behind chemistry. Organised test schedules ensured a complete and thorough revision, and helped me memorise a big chunk of inorganic chemistry.

Weekly discussions of assignments and tests helped me to clear all of my doubts and also provided me with multiple approaches to solve problems quickly and effectively. In these 2 years of my preparation, I do not remember being bored in any chemistry class, due to sir's ability to instill curiosity towards chemistry. This curiosity also made sure that I never saw chemistry as a burden, rather as a fun learning experience.

I would like to thank the entire SKYChem team, for helping me achieve my goals.

SKY sir has deep rooted knowledge and best teaching methodology. Classes with him are fun and engaging. He teaches amicably and has a great grip over all the concepts. His content is unquestionable. The regular test taking schedule and most importantly their timely personalised evaluation and analysis without any delay helps alot. With his thought provoking method the learning environment built in the class is just amazing. He establishes one to one relationship with his students.

I joined SKYChem in class 10th to learn chemistry for the NEET exam but surely he has taught a lot more than that. NEET exam is not just about knowing the subjects, it's alot more. SKY sir knew this from the beginning of our journey and formulated certain techniques which made our course much more captivating and mesmerising.

No doubt, he made learning chemistry a cakewalk, but along with that he instilled in us self-confidence which is a key to this kind of a sinusoidal journey with regular ups and downs. Not only chemistry, but also he helped us out in other subjects by providing a correct direction and approach to follow.

His personalised doubt slots and regular interactive discussion classes were the best for me. I lacked the belief in my ability to excel in an exam like KVPY (AIR: 532) but with his dedication and his confidence in his students, I was able to crack it as well.

What helped most was his continued interaction with the students during the last 3-4 months before the final exam. He gave us 3 hours full syllabus offline tests with NTA parameters such as same OMR, attendance with thumb impressions, regular signatures in middle of the test to make us accustomed to real life exam situation. I won't forget the noises created by him and Aman sir during such tests to check our patience level : | but truly speaking this helped me get rid of exam anxiety which eventually enabled me to perform my best in the NEET exam. If he finds you enthusiastic enough to learn, he will leave no stone unturned to bring about the best out of you. All you need is just honest dedication.

I completely relied upon him for my course and I am elated that I took this decision. I would like to sincerely thank and appreciate not only his efforts but of the entire team at SKYChem Education including the best technical support and the best management. I hope to keep learning from you sir because the relation we have established, I don't think is just going to end with the exam.

Testimonials & Success Stories

SKY sir is the most cheerful and zealous teacher I have ever studied from. I joined him in class 10 and thank God I did! Owing to his far-sighted approach, a strong foundation was laid for my JEE preparation. His friendly and enthusiastic teaching methodology made the so-called boring subject of chemistry really enjoyable and my personal favorite. I never really faced a problem in any particular topic that he taught me. He has had a great role in my success in JEE Main (AIR 587) and JEE Advanced (AIR 358).

SKY Sir - the legend of Chemistry, be it IIT-JEE or NEET or KVPY or Boards; the students of SKY Sir always shine high with flying colors in every field involving Chemistry. His method of teaching is fabulous. The course contents covered during the entire preparation are mind blowing. Regular tests and quizzes keep everyone in touch with the concepts and help in strengthening them. Surely, being student of such a passionate mentor has been one of the best experiences of my life.

If you are an aspirant who would like to seek coaching for Chemistry, SKY Sir at SKY Chem Education is the best!
Thank you Sir for your guidance and support

Testimonials & Success Stories

The most enthusiastic teacher I've ever come across! His way of introducing new concepts of chemistry makes the students willingly fall in love with the subject.

None of his students can ever feel crestfallen as he always clears their doubts duly. From being an earnest and devoted educator, to being an openhearted friend when you need moral support, he is an unparalleled chemistry teacher and undoubtedly a blessing to all his students.

When I was first introduced to chemistry in class 9th, I found it rather tedious and boring but after joining SKYChem Education in Class 10th, SKY Sir laid a really strong foundation and it changed my whole view about the subject. He taught it in such an interesting way that his classes became the best part of my day and I eagerly awaited them. His in-depth knowledge of the subject and his unmatched enthusiasm for teaching makes him a walking inspiration. His captivating energy creates a positive aura in the classroom as well as the library which eventually became my favourite place for self-study. His class notes with special emphasis to NCERT as well as the coaching material (DPPs and Booklets) are in itself a complete package including additional exercises for NEET aspirants as well.

His interactive and unique teaching methods make conceptual chapters of physical chemistry like ionic equilibrium and thermodynamics really easy to understand even for medical students, his comprehensive notes and regular viva makes Organic chemistry really fun and his eye-opening way of teaching Inorganic chemistry made me see the logic in everything (without him I would've left inorganic altogether). The exceptional doubt clearing sessions provide a great one-to-one interaction and his follow-up on the students until the final exam is truly remarkable. His regular testing schedule both during and after the completion of the syllabus is exceptional including TRTs, FSQs, FRQs, IRQs, full syllabus PCBs, RTs, Quizzes and tests on latest CBSE pattern for board exams as well. It is completely because of him that chemistry became my personal favourite subject.

He not only guided me in academics but also helped me create a fighter attitude towards life in general and he always focused on the overall personality development (including physical exercise, he even plays cricket with the students regularly). He never gave up on me and gave me strength to fight till the end and most importantly he taught me to set my heart upon my work but never on its reward. This sinusoidal journey with both ups and downs and many motivational sessions (more than I can count) under SKY Sir's guidance, has been undeniably fruitful and enjoyable with many fun elements along the way, he not only prepared me for competitive exams but also for the days ahead. I am truly thankful to SKY Sir and the entire team of SKYChem Education for everything they did and I really could not have done this without anyone of them, they have had a great role in my success in NEET 2022 (AIR-3021).

Testimonials & Success Stories

SKY Sir is one of the best educators I have ever come across. His teaching methodology is something that I became fond of. Initially, I used to believe in the fact that everything needs to be memorized in Chemistry but he is the one who gives logic to almost all the stuff. At one point in this duration, I even started to like the subject because of such logical explanations.

It was Physical Chemistry that I enjoyed doing the most which resulted in me leaving behind Organic and Inorganic Chemistry. But he provided me with a complete go through of the Organic once again to create interest resulting in the fact that I completed Organic and even a few portions of Inorganic.

Also, something I like the most about him is his vision which wasn't limited to JEE exam or Chemistry subject. He tried to shape my attitude towards life in general and how to fight courageously with difficulties and tough times rather than running away from them.

Our batch was the one that spent almost 1.5 years in online mode but whatsoever may come he ensured that the interaction kept alive. He used to make sure that no lag is being created in the preparation from my side and nothing negative is going on in my mind due to exams being postponed or COVID times.

I know I wouldn't have been here if SKY sir wasn't there for me. I would like to thank him a lot for the immeasurable support he provided me.

SKY SIR is one of the best teacher of chemistry I have met. He started teaching chemistry to me from class 9 and from there he laid a strong foundation. He never used to teach topics of class 11 and 12 in class 9 or 10 instead he used to teach the application part . This helped me a lot in class 11 and 12 in understanding the topics very easily . His observations in chemistry are quite unique which helped me to solve tricky questions easily. Even in covid time he was ready with online quizzes and full syllabus test , which helped in complete revision of syllabus. Apart from studies we frequently used to go for playing cricket . So I suggest my juniors to join SKY SIR . My success credit (cleared KVPY in both class 11 and 12 and secured AIR 951 in JEE ADV 2020) goes to SKY SIR.

Chemistry classes were a mix of gaining knowledge and enjoying the experience. I had a fear that not joining chemistry classes in 9th or 10th might lead to difficulties in my preparation but I realized that it did not make much difference, thanks to SKYChem team. SKY Sir's words of wisdom and his way of teaching banished my fears off. SKYChem team gave their best to minimize the obstacles of online classes. They were always ready for any challenge. A constant check was kept on our homework and test reports which helped me to be consistent with my preparation. Sir recommended self-analysis in order to improve gradually which worked wonders for me. With sir's guidance, it became easier for me to overcome my mistakes. His deep insights motivated me all the way along.

At some point of time in class 12th, I began to worry too much about my scores in the regular tests that it ended up disturbing my mental peace and distracting me from the actual goal. Sir helped me get away from this thinking and move forward with a positive mindset. One of the main highlights of class 12th "The Board Exams" were smooth sailing with him. He has been a patient listener to all my problems and provided the best solutions possible. I remember, he once said that thinking, everything will go as planned is highly wrong and deceptive. His words helped mould my attitude leading me to success. He displayed immense confidence in me, which gave me the strength to fight against all the odds.

Sir also guided me to organize my day schedule. He had a friendly approach to it and one of them was to motivate me to study in the library. The SKYChem library became a second home and comfort place for me. Sir stressed upon the fact that we should have a healthy discussion group and ours turned out to be a great one. Learning together with my peers was so fun at SKYChem.

SKY Sir is par excellence as a teacher. He is always ready to learn along with his students. He taught physical, organic and inorganic chemistry, all three in such amazing ways. Organic chemistry is presumed to be the most difficult but it becomes easy going with him. He made us visualize the concepts which led to deep understanding of the subject. Inorganic Chemistry is not all about cramming the facts. Best explanation related to all the relevant concepts was given. Physical Chemistry becomes a breeze for medical students with his assistance. Later on, the physical questions became the most wanted ones. Memorizing a lot of things become a way easier when someone (SKY Sir) is there to remind you the reason for doing the same.

I would like to extend my heartiest gratefulness to the most passionate, hardworking and cheerful teacher, SKY Sir. I am thankful to the entire team at SKYChem for helping me secure AIR 1627 in KVPY 2021 and AIR 4728 in NEET 2022. My 2 years at SKYChem have been wonderful.

Testimonials & Success Stories

I started my JEE Preparation in 2018. At the very early stage of my preparation, I started facing problems in some topics of Physical chemistry and someone suggested me to approach to SKY Sir. I started there six months late but I had everything covered up till the time I entered in 12th Class. I not only studied physical chemistry there, but also excelled in Organic chemistry through his guidance, which is very important for JEE. During the time of Covid-19 we were in touch through phone calls and WhatsApp where we discussed questions. We were also provided tests/quizzes to keep ourselves in touch with syllabus. He is not only a great teacher but also a great mentor by guiding us in certain ways on how to learn certain topics, what should be the method of solving the question paper and how to revise topics just one or two months before exam etc. The best thing about the SKY sir's method of teaching is that while teaching he would tell some jokes, short stories or his own experiences which reduces the stress and helps in maintaining our interest in the subject.

I would like to thank him for my performance in JEE 2020 and not only for Chemistry, but for everything.

SKY Sir is one of the best teachers I have ever met. His teaching style is excellent. It was always fun to attend his class. His teaching made chemistry easy as he always emphasized understanding the concepts and not just resorting to rote learning.

Whenever I had difficulty with my studies, SKY Sir always solved my issue. His deep knowledge of the subject always helped me clear my doubts regardless of if that was in the syllabus.

During the pandemic, he increased the frequency of quizzes and tests so that we did not stop studying. Even when the papers were postponed, he gave us homework sheets and organic practice problems so that we could keep our grip over the complete syllabus and not forget anything.

Thank you sir for being my chemistry teacher.

Testimonials & Success Stories

The best teacher educates young students for life and not for an exam and SKY Sir is among one of them. Classes with SKY Sir have been so worthwhile.

SKY Sir has an amazing way of breaking equations down so that they are understandable and always keeping it light and fun. He is very patient and its very comfortable to practice conversations with him. I have been learning chemistry from SKY Sir from last 4 years and it has been a great experience. SKY Sir is a very thoughtful teacher and has a unique way to present the material. He paces the class just right so that you feel challenged but not overwhelmed. He asks questions and gets the students to respond which is both fun and promotes faster learning.

SKY Sir not only taught me Chemistry but helped me to groom my overall personality so that I can excel in life. My bond with SKY Sir started the day I first introduced myself to him during 9th class orientation and will remain forever.

I would highly recommend SKY Sir for all the engineering and medical aspirants.

I joined SKYChem education when I was in class 9th. SKY Sir played a great role in my success.

The DPPs and booklets given are one of the best and the content provided is more than sufficient. What I feel best about him is that he is always willing to help and always supports no matter what is your current level or rank in test. Also the quizzes were conducted regularly which helped a lot in my preparation. I think that the number of examples solved in the class in organic chemistry are maximum atleast in India.

He is also a very good mentor and keeps his students connected till end. I was able to get to IIT because of SKY Sir because when my JEE Mains didn't go much well, I was depressed and planning to take a drop and not prepare for Advanced. At that time he convinced my parents and me to fight till end.

I will surely recommend SKYChem Education to the future aspirants.

Thank You, SKY Sir
